### Abstract:

*SO much for plain speaking Kerry men.*

### Full Text:

*Copyright Irish Times Ltd. May 17, 1996*

SO much for plain speaking Kerry men. The Margin's latest mouthful award is won by a line from a brochure describing the wonders of Killorglin based foreign exchange group Fexco's new  Unisys computer system. "The new Unisys SMP61000 server, particularly when equipped with 200 MHz Pentium Pro processors and the  Unisys engineered 533MB/s Synchronous Coherent Memory (SCM) system bus, will be a system to reckon with." It's obvious really. Isn't it?

[Save Link](#) Saves this search as a Durable Link under "Results-Marked List"**Your search did not find any articles.** These tips can help:

- Verify the correct spelling of your search terms.
- If you're searching "Citations and Abstracts", try the same search in "Article text".
- If you're searching only one or two collections, use [Change Collection](#) to add another or search ALL available collections.
- Remove any limit to Full text articles or Peer reviewed.
- If you're using [Basic](#) or [Guided Search](#), don't enter a question or long sentence. Instead, use the AND operator to link important words of the sentence together. For example, instead of *What is the largest continent on Earth?*, search for *largest AND continent AND earth*.
- Use [Natural Language Search](#) to enter a question in everyday English.
- Use the [Topic Search](#) to find articles relevant to what you are looking for.
